

THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

20 May 1987

NOTE FOR: ADCI

FROM: C/NIC

Bob,

FYI--In the interest of clarifying the nature of the attached report to the new Director, and to any new readers over time, in a manner that would be consistent with the approach we take to "truth in advertising" in the "integrity and objectivity" briefing and paper, we will be considering a footnote along these lines be added to future editions of this document:

"This review reflects consideration of inputs generated at warning meetings conducted by the various NIOs with community representatives from all areas. As such, it represents a community-wide review, but it is not a community-coordinated product."

We will work the exact words among John Bird and the rest of the NIOs and warning community and plan to begin using it next month.

V/R,

Frank B. Horton III
Major General, USAF
